Marble Hill, Missouri, Thursday, June 24, 1909.

No. 7.

GRAND PICNIC

CONRAD'S GROVE

LUTESVILLE and MARBLE HILL

Saturday, July 3, '09.

The report that there is smallpox in Lutesville and Marble Hill and that the picnic here has been called off on account of it is absolutely false. There is not and has not been a case of smallpox in either of the towns or near either of them. The management is putting forth every effort to make this the greatest picnic ever given here. You will miss a big time if you fail to come. Don't mlss it!

CHEMICAL ANALYSIS

Of Water from the Marble Hill Public Well.

For three or four years the cirizens of Marble Hill and vicinity have been drinking the pure water of a deep well, that has seemingly incur the expense of analysis.

The continued healthfulness of Burkett, whose term ands in 1911. the community and entire absence larial trouble has failed to yield to
